(MCD) = Minor Civil Division; CCD = Census County Division

Hickman

Where international, state, and/or county boundaries coincide, the map shows

¹ A '*' following a place name indicates that the place is coextensive with a MCD; A '°' indicates that the place is also a false MCD; the false MCD name is not shown.

This map shows tribal census tract boundaries and numbers within the subject entity; nontribal census tract boundaries are shown outside of the subject entity but without numbers. A tribal census tract is a type of census tract defined within a federally recognized American Indian reservation or off-reservation trust land for the purpose of providing data based on an American Indian hierarchy rather than by state and county. When reservations or off-reservation trust lands cross tribal and state boundaries, the same tribal census tract number may be assigned on both sides of the boundary, and, if so, constitute a single tribal census tract entity.

3 A * * following a block number indicates that the block number is repeated elsewhere in the block.

T2865 Poarch Creek
